

Fotoplast[®] Gel

Technical Data Sheet

Product description: Light-curing material for the production of earmolds.

Extended purpose: Light-curing material as an accessory for the production of earmolds.

Manufacturer: Dreve Otoplastik GmbH
Max-Planck-Straße 31
59423 Unna / Germany

Composition:

Pos	chemical term
1	Acrylate
2	Methacrylate
3	Photo initiator
4	Additives
5	Dyes

Color: clear-, red-, blue-transparent

Properties:

Hardness: approx. 83 Shore D

Viscosity: approx. 11 Pa*s (at 23 °C)
